

Polycom® Communicator

Model C100

High quality, hands-free calls from your PC

Benefits

Hands-Free Freedom – Untie yourself from your headset for clear one-on-one calls or group conversations

High-Fidelity Speaker – High-quality audio for the best possible voice and video calls. Hardware supports up to 22kHz for CD-quality music or presentation audio

Two High-Quality Stereo Microphones – Others on your call will hear every word clearly, whether you are in an office or a conference room

Easy to Use – Convenient buttons enable you to launch applications, pick up and hang up calls, and control volume and mute

Built-in Stereo Headphone Port – Plug in headphones for private conversations, or unplug to go hands-free

Ultimate Portability – The integrated USB cable stores inside the unit for portability and convenience

Untie yourself from your headset for remarkable voice quality.

Enjoy the ultimate hands-free calling experience from your PC with Polycom Communicator. Based on the same technology used in the legendary Polycom line of triangular SoundStation® conference phones, Polycom Communicator enables crystal-clear, natural conversations without echoes or feedback. Enjoy the freedom of not wearing your headset for hands-free calls, or plug into the built-in stereo headphone port for private conversations.

Polycom Communicator delivers remarkable audio quality that enables seamless voice and video communications, without compromise. Two high-quality microphones provide excellent range for group conversations with up to four participants. Polycom HD Voice™ technology enables high-fidelity, CD-quality sound,* along with unparalleled echo cancellation, noise reduction and full duplex performance.

The unit connects and powers through an integrated USB cable for easy installation and use – no extra cables to carry or batteries to charge. Its small size and carrying case make it easy to take with you. Plus, the high-fidelity speaker doubles as a great portable solution for CD-quality music and presentation audio.

Integrated button controls allow you to launch voice and video applications and pick up or hang up calls without using your mouse. Convenient buttons and indicators for volume control and mute are also built-in.

No other product comes close — only Polycom Communicator delivers a hands-free PC calling experience featuring:

- Remarkable voice quality
- Two high-quality microphones
- Polycom HD Voice, with industry-leading echo cancellation and full duplex technology
- Integrated button controls for a seamless user experience

Polycom Communicator works with Polycom PVX™ desktop video conferencing software, as well as a growing number of certified IP soft phones and service providers. Please check www.polycom.com/communicator for an updated list of supported platforms.

Make Great Things Happen with Polycom Communicator

In today's Internet driven world, the ability to conduct real time communication and collaboration has become critical to an organization's survival. As the market leader in voice, video, data and Web solutions, our award-winning conference technology makes it easy for people to interact and maximize productivity — over any network, in just about any environment, anywhere around the globe. That's why more organizations worldwide use and prefer Polycom conferencing solutions. Because when people work together, great things happen. See how you, too, can achieve great things with Polycom Communicator.

* Audio performance will vary by application.

 **POLYCOM®**
TOGETHER, GREAT THINGS HAPPEN.
